

STEAM BOILER

CLASSICAL PROJECTS

As a leading manufacturer of high efficiency energy saving boilers, Kenuo has serviced customers for various industries such as food&beverage, textile, paper mill, pharmaceutical industry and so on.

Ms Aileen

Product Concept

Reliability

Excellent operation
performance

Energy-saving

Multi-stages energy saving
device to ensure the highest
efficiency

Integration

Highly integrated boiler
system to save customer's
installaton cost to the most.

Durability

High qlity material, precision
production and perfect boiler
strucuter design make the
boiler ultra long service life.

1. Civil work

Highly integrated boiler system design, Minimum footprint, save the boiler room investment cost.

2. Fuel cost

Unique 4 level energy-saving structure design, highest efficiency to reduce operation cost to the most.

3. Power

Adopt ABB inverter for burner fan, water feeding pump and PLC control, save power at least 20%.

4. Installation

Engineered boiler with burner, pump, economizer, preheater and controller as a single, save onsite installation time&cost.

5. Maintain

Superior product quality and no refractory smoke box makes the boiler rare to 0 after-sale troubles.

PROJECT 01

Contemporary Amperex Technology Co., Ltd.

Contemporary Amperex Technology Co., Ltd. (CATL), is a world-leading new energy innovation technology company committed to providing first-class solutions and services for global new energy applications. In 2023, CATL's global power battery usage market share was 36.8%. From 2017 to 2023, CATL's power battery usage ranked first in the world for seven consecutive years.

CATL is KENUO Loyal Customer
From 2017, have purchased totally 48 Sets gas
boilers for their 1-8 phases projects.

20 tons/hr Gas Fired Saturated Steam Steam Boiler for Phase 1-2 project

- Purchase time: May, 2021
- Boiler Model: NWNS20-1.25-YQ
- Quantity: 10 Sets
- Location: Yibin, China
- Application: Battery production

20 tons/hr Gas Fired Superheated Steam Boiler for Phase 3-4 project

- Purchase time: October, 2022
- Boiler Model: WNS20-1.25/230-Q(LNK)
- Quantity: 10 Sets
- Location: Yibin, China
- Application: Battery production

CLASSIC CASES

20 tons/hr Gas Fired Superheated Steam Boiler for Phase 5-6 project

- Purchase time: October, 2022
- Boiler Model: WNS20-1.25/230-Q(LNK)
- Quantity: 10 Sets
- Location: Yibin, China
- Application: Battery production

CLASSIC CASES

CLASSIC CASES

- Purchase time: May, 2015
- Boiler name: Ultra Low NOx Rear Air Preheating Steam Steam Boiler
- Boiler Model : 4sets WNS8.0-1.25-Q(LN)
3 sets WNS6.0-1.25-Q(LN)
- Application: Industrial manufacturing

PROJECT 02

Hebei Jingche Rail Transit Vehicle Equipment

Hebei Jincheche Rail Transit Equipment Group, Founded in 2013, the company is mainly engaged in the independent research and development, design, production and sales of urban rail transit vehicles and urban train-related technologies, as well as the research and development, design, parts production, assembly and construction management of Beijing's maglev train-related technologies.

Project Details:

- Boiler type: Low NOx Condensing Steam Boiler
- Steam Capacity: 20 ton/hr
- Fuel: Natural Gas
- Purchase time: July, 2020
- Model: WNS20-1.25-Q(LNK)
- Quantity: 5 Sets
- Location: Beijing, China
- Application: Vehicle production

CLASSIC CASE- Hebei Jingche Rail Transit Vehicle Equipment Co., Ltd.

PROJECT 03

Tianjin Samsung Vision Co., Ltd

Tianjin Samsung Vision Co., Ltd. is a large joint venture established in July 1996 with the approval of the Ministry of Foreign Trade and Economic Cooperation. It is jointly invested by Samsung Vision (Hong Kong) Co., Ltd. of South Korea and Tianjin Electronic Instrument Industry Corporation.

Project Details:

- Boiler type: Low NOx Condensing Steam Boiler
- Steam Capacity: 15 ton/hr
- Fuel: Natural Gas
- Purchase time: July, 2020
- Model: WNS15-1.25-Q(LNK)
- Quantity: 2 Sets
- Location: Tianjin, China
- Application: production process

PROJECT 04

Heilongjiang ZBD Pharmaceutical Co., Ltd

Heilongjiang ZBD Pharmaceutical Co., Ltd. is a large-scale Shanghai Stock Exchange listed company (stock code: 603567) dedicated to providing high-quality products and services for human health. The company focuses on the development direction of innovation, creation, high quality and high technology. Its business covers four major sectors: scientific research and development, pharmaceutical industry, traditional Chinese medicine industry and financial investment. It is one of the most innovative pharmaceutical companies in my country's pharmaceutical industry.

Project Details:

- Boiler type: Low NOx Condensing Steam Boiler
- Steam Capacity: 10 ton/hr
- Fuel: Natural Gas
- Purchase time: November, 2021
- Model: WNS10-1.25-Q(LNK)
- Quantity: 3 Sets
- Location: Heilongjiang, China
- Application: medician production

PROJECT 05

Eve Energy Co., Ltd.

Eve Energy Co., Ltd. was established in 2001 and was listed on the Shenzhen Growth Enterprise Market in 2009. After 23 years of rapid development, it has become a lithium battery platform company with global competitiveness. It also has core technologies and comprehensive solutions for consumer batteries, power batteries, and energy storage batteries. Its products are widely used in the fields of Internet of Things and Energy Internet. (Stock Code: 300014)

Project Details:

- Boiler type: Low NOx Condensing Steam Boiler
- Steam Capacity: 12 ton/hr
- Fuel: Natural Gas
- Purchase time: March, 2022
- Model: WNS12-1.25-Q(LNK)
- Quantity: 2 Sets
- Location: Huizhou, China
- Application: battery production

PROJECT 06

Jiangsu Zhitai New Energy Technology Co., Ltd.

Jiangsu Zhitai New Energy Technology Co., Ltd. was established in August 2018. It mainly provides systematic products and solutions with lithium-ion batteries and sodium-ion batteries as the core in the field of energy storage applications. It focuses on the research and development, manufacturing, sales, and services of a full range of products including industrial and commercial energy storage, large-scale energy storage, communication backup power storage, and civil energy storage.

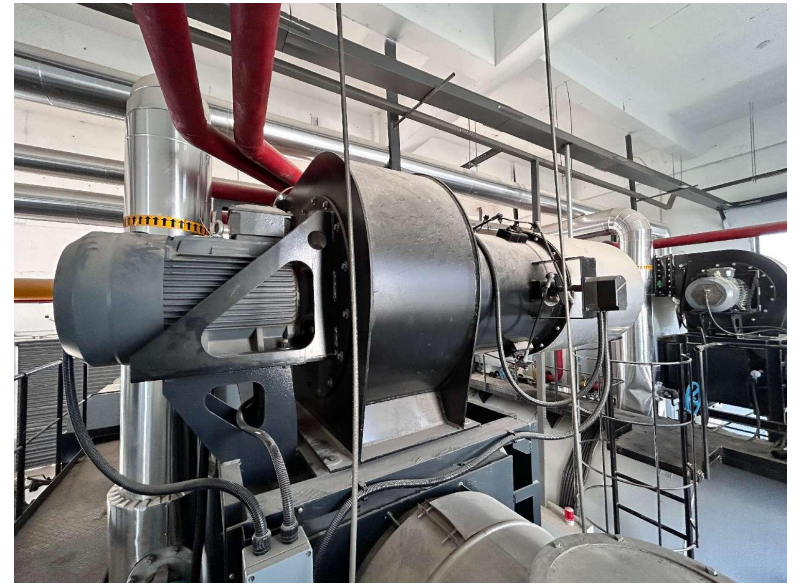

Project Details:

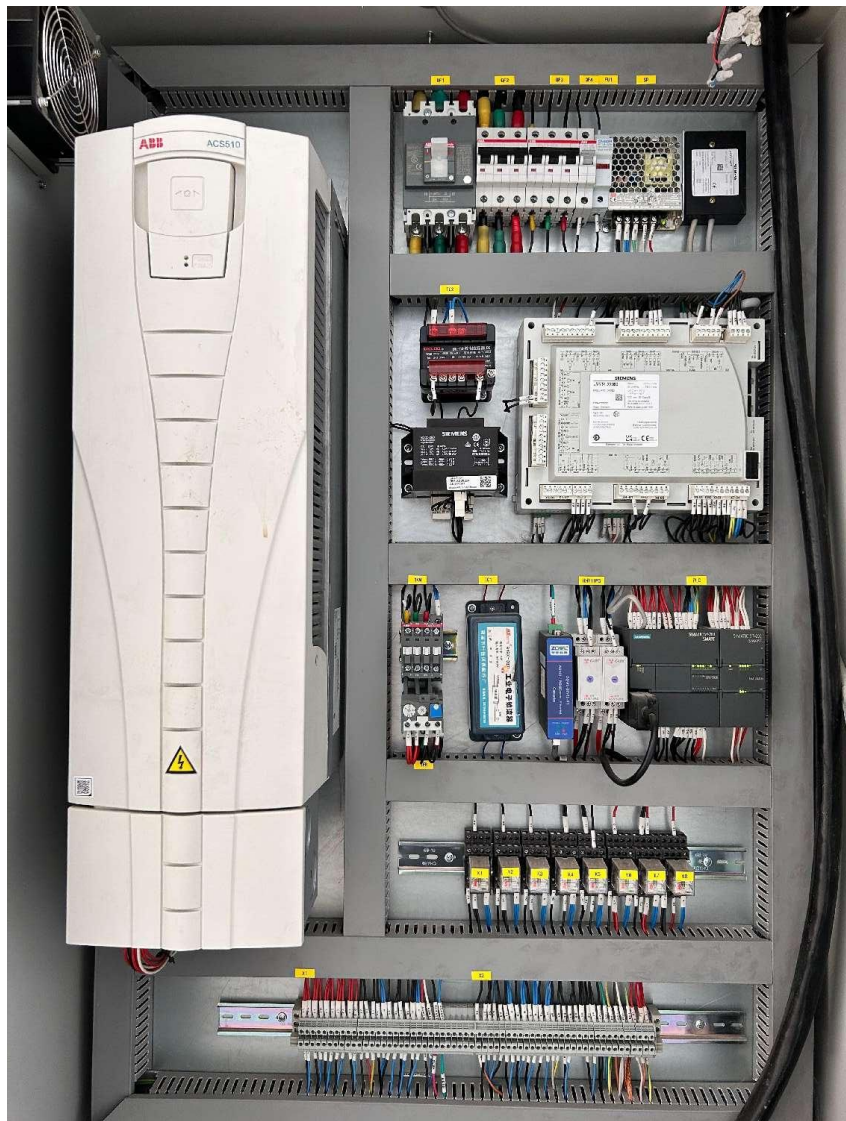

- Boiler type: Rear Air Preheating Condensing Steam Boiler
- Steam Capacity: 8 ton/hr
- Fuel: Natural Gas
- Purchase time: August, 2023
- Model: WNS8-1.25-Q(LNK)
- Quantity: 3 Sets
- Location: Jiangsu, China
- Application: battery production

PROJECT 07

Institute of Medical Biology, Chinese Academy of Medical Sciences

Founded in 1958, it is a WHO Collaborating Center for Enterovirus Reference Research and a master's and doctoral degree awarding institution of Peking Union Medical College and Tsinghua University School of Medicine. The Institute is mainly engaged in basic and applied research in medical virology, immunology, molecular biology technology, medical genetics, molecular epidemiology, and experimental animals and animal experimental technology mainly based on primates, and carries out large-scale production of vaccines, immune products and genetic engineering products.

Project Details:

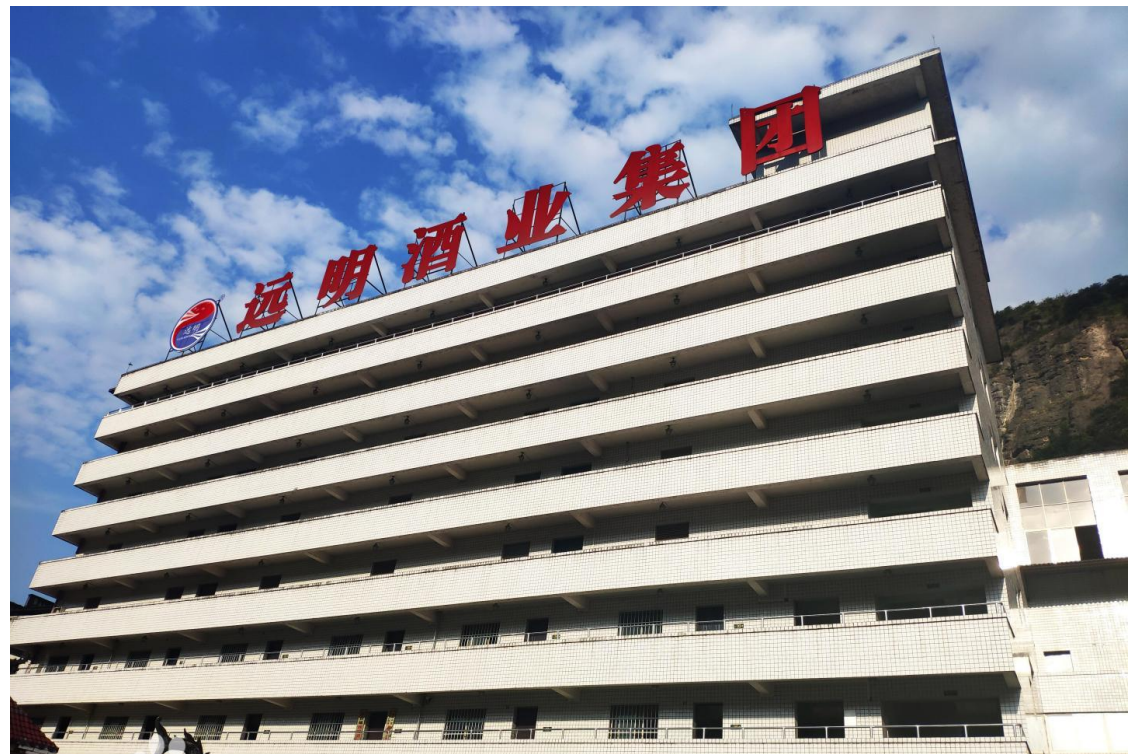

- Boiler type: Low NOx Condensing Steam Boiler
- Steam Capacity: 8 ton/hr
- Fuel: Natural Gas
- Purchase time: March, 2022
- Model: WNS8-1.25-Q(LNK)
- Quantity: 3 Sets
- Location: Beijing, China
- Application: medicine production

PROJECT 08

Yuanming Winery Group

Yuanming Winery originated in 1975 and was officially established in 1986. It is a brewing winery integrating R&D, brewing, production and sales. Over the years, Yuanming Winery Group has always adhered to integrity, excellent quality as the core, established brand awareness, focused on improving product and service quality, actively assumed social responsibilities, and is committed to building a century-old conscientious enterprise!

Project Details:

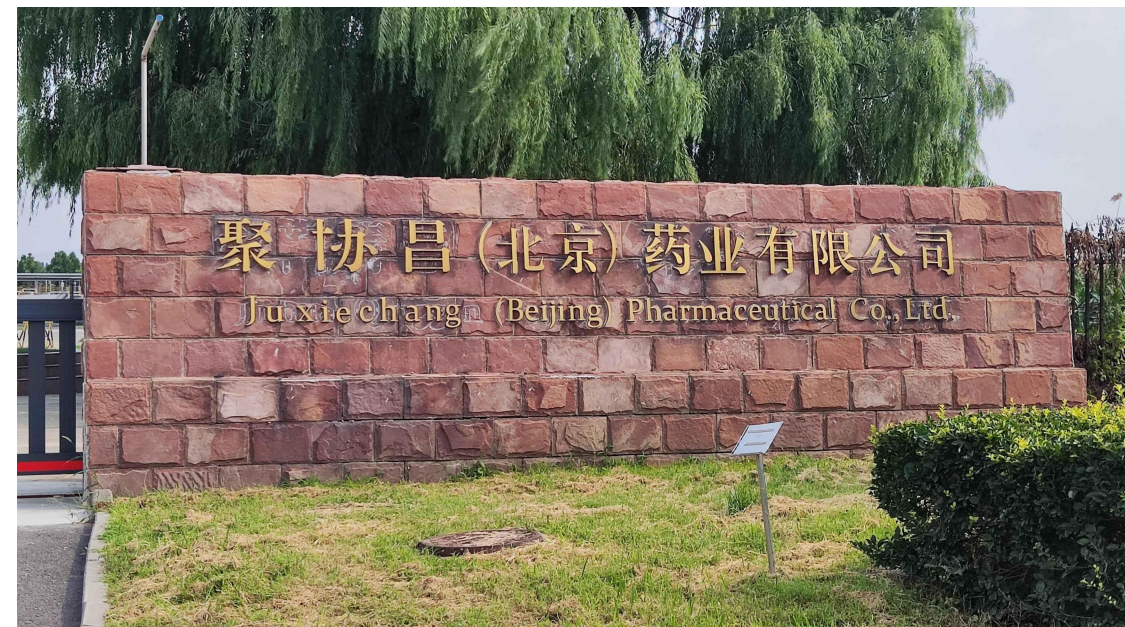

- Boiler type: Low NOx Condensing Steam Boiler
- Steam Capacity: 20 ton/hr
- Fuel: Natural Gas
- Put in to use: June, 2024
- Model: WNS20-1.25-Q(LNK)
- Quantity: 2 Sets
- Location: Guizhou, China
- Application: wine production

PROJECT 09

Juxiechang (Beijing) Pharmaceutical Co., Ltd.

Juxiechang (Beijing) Pharmaceutical Co., Ltd. was founded in 1998 and has always adhered to the corporate spirit of "uniting the same benevolence and coordinating the wise and capable" to create superior products. It is mainly engaged in the research and development, production and sales of Chinese patent medicines and health foods. It is a national high-tech enterprise and a high-tech enterprise in Beijing Zhongguancun.

Project Details:

- Boiler type: Low NOx Condensing Steam Boiler
- Steam Capacity: 10 ton/hr
- Fuel: Natural Gas
- Put in to use: May, 2022
- Model: WNS10-1.25-Q(LNK)
- Quantity: 2 Sets
- Location: Beijing, China
- Application: Pharmaceutical production

Jinan Sanhe Pipe Pile Co., LTD

Boiler type: Ultra Low NOx Condensing Steam Boiler
Purchase time: 2019.9
Boiler Model: WNS10-1.25-Q
Quantity: 2 Sets

Guangzhou Feinan material Co., LTD

Boiler type: Ultra Low NOx Condensing Steam Boiler
Purchase time: 2020.9
Boiler Model: WNS10-1.25-Q
Quantity: 3 Sets

Yunnan JinOu Chemical Co., LTD

Boiler type: Ultra Low NOx Condensing Steam Boiler
Purchase time: 2021.5
Boiler Model: WNS15-1.25-Q(LNK)
Quantity: 1 Set

Southwest Pharmaceutical Co.,Ltd.

Boiler type: Ultra Low NOx Condensing Steam Boiler
Purchase time: 2020.3
Boiler Model: WNS10-1.25-Q(LNK)
Quantity: 2 Sets

Fujian Licheng Food Co., Ltd.

Boiler type: Ultra Low NOx Condensing Steam Boiler

Purchase time: 2021.12

Boiler Model: WNS10-1.25-Q(LNK)

Quantity: 1 Set

Shangxi Shuochang Food Co., Ltd.

Boiler type: Ultra Low NOx Condensing Steam Boiler

Purchase time: 2022.10

Boiler Model: WNS8-1.25-Q

Quantity: 1 Set

Chongqing Nengkong Power Technology

Boiler type: Ultra Low NOx Condensing Steam Boiler

Purchase time: 2020.12

Boiler Model: WNS4-1.25-Q(LNK)

Quantity: 3 SetS
